Mr. Frank Wood
Regional Sales Manager, Insight USA
23330 Cottonwood Pkwy, Suite 333
California, MD 20619

Dear Frank,

We were very impressed with your professionalism, enthusiasm, and product in the beginning of our relationship with Insight USA.

Since purchasing the hardware, which by the way was a very easy installation, we continue to be impressed with the service and ease of software operation. By using Insight USA Street eagle equipment, we have increased customer satisfaction by having the ability to narrow expected delivery time windows and provide critical updates to customers.

After having a truck stolen last fall, we feel that the geo-fence capabilities of your product with text message notifications will certainly help us to identify a theft in progress and a speedy recovery resulting in decreased product losses.

We are certainly looking forward to our next DOT audit when the auditor suggests that our drivers have falsified their log books based on monthly fuel records which contain incorrect data provided by our fuel supplier. We will now have the necessary documentation to disprove any erroneous findings.

Thank you for a great product and fantastic support.

Sincerely,

Ray Wildoner
Traffic Manager
